Unbind From Cloud Account

Occasionally, you may come across the need to unbind your uniview tec NVR from its current cloud account. Either a new user is taking over an existing system or the cloud account is no longer accessible are some examples.

Unbind From Recorder

1. From the screen-interface of the Recorder, right-click on the screen to access Menu selection as shown below: (You may be prompted to login if you haven't already)

uniview tec

 Once in the main menu, navigate to Network >> Basic >> P2P.

| Enable P2P | |
|---|------------------|
| Server Address | os.star4live.com |
| Register Code | 31551 |
| Device Status | Online |
| Username | univiewtec |
| Device Name | NR164X Demo |
| 💿 Add Without Signup | |
| Scan the QR code with the app to add the device | |
| | |

3. At the bottom of the P2P Menu click on the Logout icon at the bottom of the screen to unbind from its current cloud account.

Unbind via Web-Browser Interface 1. Type the IP address of the recorder into a web browser Client P2P ¥ and type your recorder System P2P username and password to Camera Hard Disk sign in. Alarm Alert 2. Click the **Setup** tab at the Network top. TCP/IP • P2P 3. Click on **Network** on the left DDNS
